

Income Calculator

Your income should be based only on what is stated in your job offer and the total length of your program (not including the grace period). This is an approximation of your potential income only, not a guarantee of income.

Expense Calculator

You may not receive your first paycheck for several weeks after your arrival, so be sure to bring enough money with you to pay for your expenses until you start receiving paychecks. You will need to budget carefully during your stay in the U.S. Use the calculator below to deduct expenses from your Net Income above. Remember to figure for cigarettes, drinks, movies, etc. if applicable. (Some entries may be "0".) This is an approximation of expenses only. Some expenses may not be accounted for in the worksheet below. You are still responsible for all of your own expenses.

Program Fee (including Insurance)

Agent Fee

Roundtrip Airfare

Transportation to Work	Cost per Day	Total Weeks
Food (suggested minimum \$10 per day)	Cost per Day	Total Weeks
Housing Deposit		
Rent / Housing Fees	Cost per Month	Total Months
Telephone	Cost per Month	Total Months
Mail	Cost per Month	Total Months
Entertainment	Cost per Month	Total Months
Leisure Travel / Vacation		
Miscellaneous	Cost per Month	Total Months

I understand that I am responsible for my expenses during my stay in the United States. I know that this worksheet is an approximation of my potential income and expenses only. I do waive and release all claims against PII and its agents for any changes in the above calculations.
